

# CCFL QUICK GUIDE

POWERSTATION SERIES

## RECOM

Did you know the enforcer bar isn't just for stability and the extra low-noise case fan?

In this quick guide we will explain in 4 steps how to mount & camouflage your CCFL light in our powerstation series. ( 30 cm CCFL )

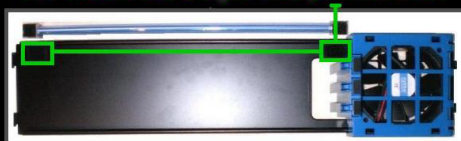

Without losing the enforcerbar flexibility you can customize your powerstation.

Recom CCFL lights can be turned off at the rear end of the powerstation case.

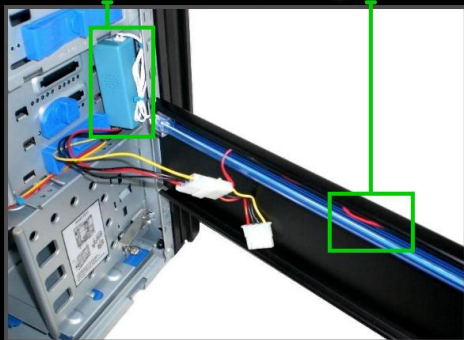

**Step 1 :** Unmount the enforcer bar out of the powerstation case.

**Step 2 :** Use the stickers provided with the recom CCFL light and put them on.

**Step 3 :** Mount the transformer with the sticker and camouflage the cables

**Step 4 :** Put the side panel back in. (Don't forget to connect the LED fan)
